MANAGEMENT

REPORT DEVELOPMENT

MANAGEMENT EXPERIENCE

PROJECT MANAGEMENT

The company uses the Agile Project Management method.

Sprint Planning: Set goals, estimate tasks, update JIRA.

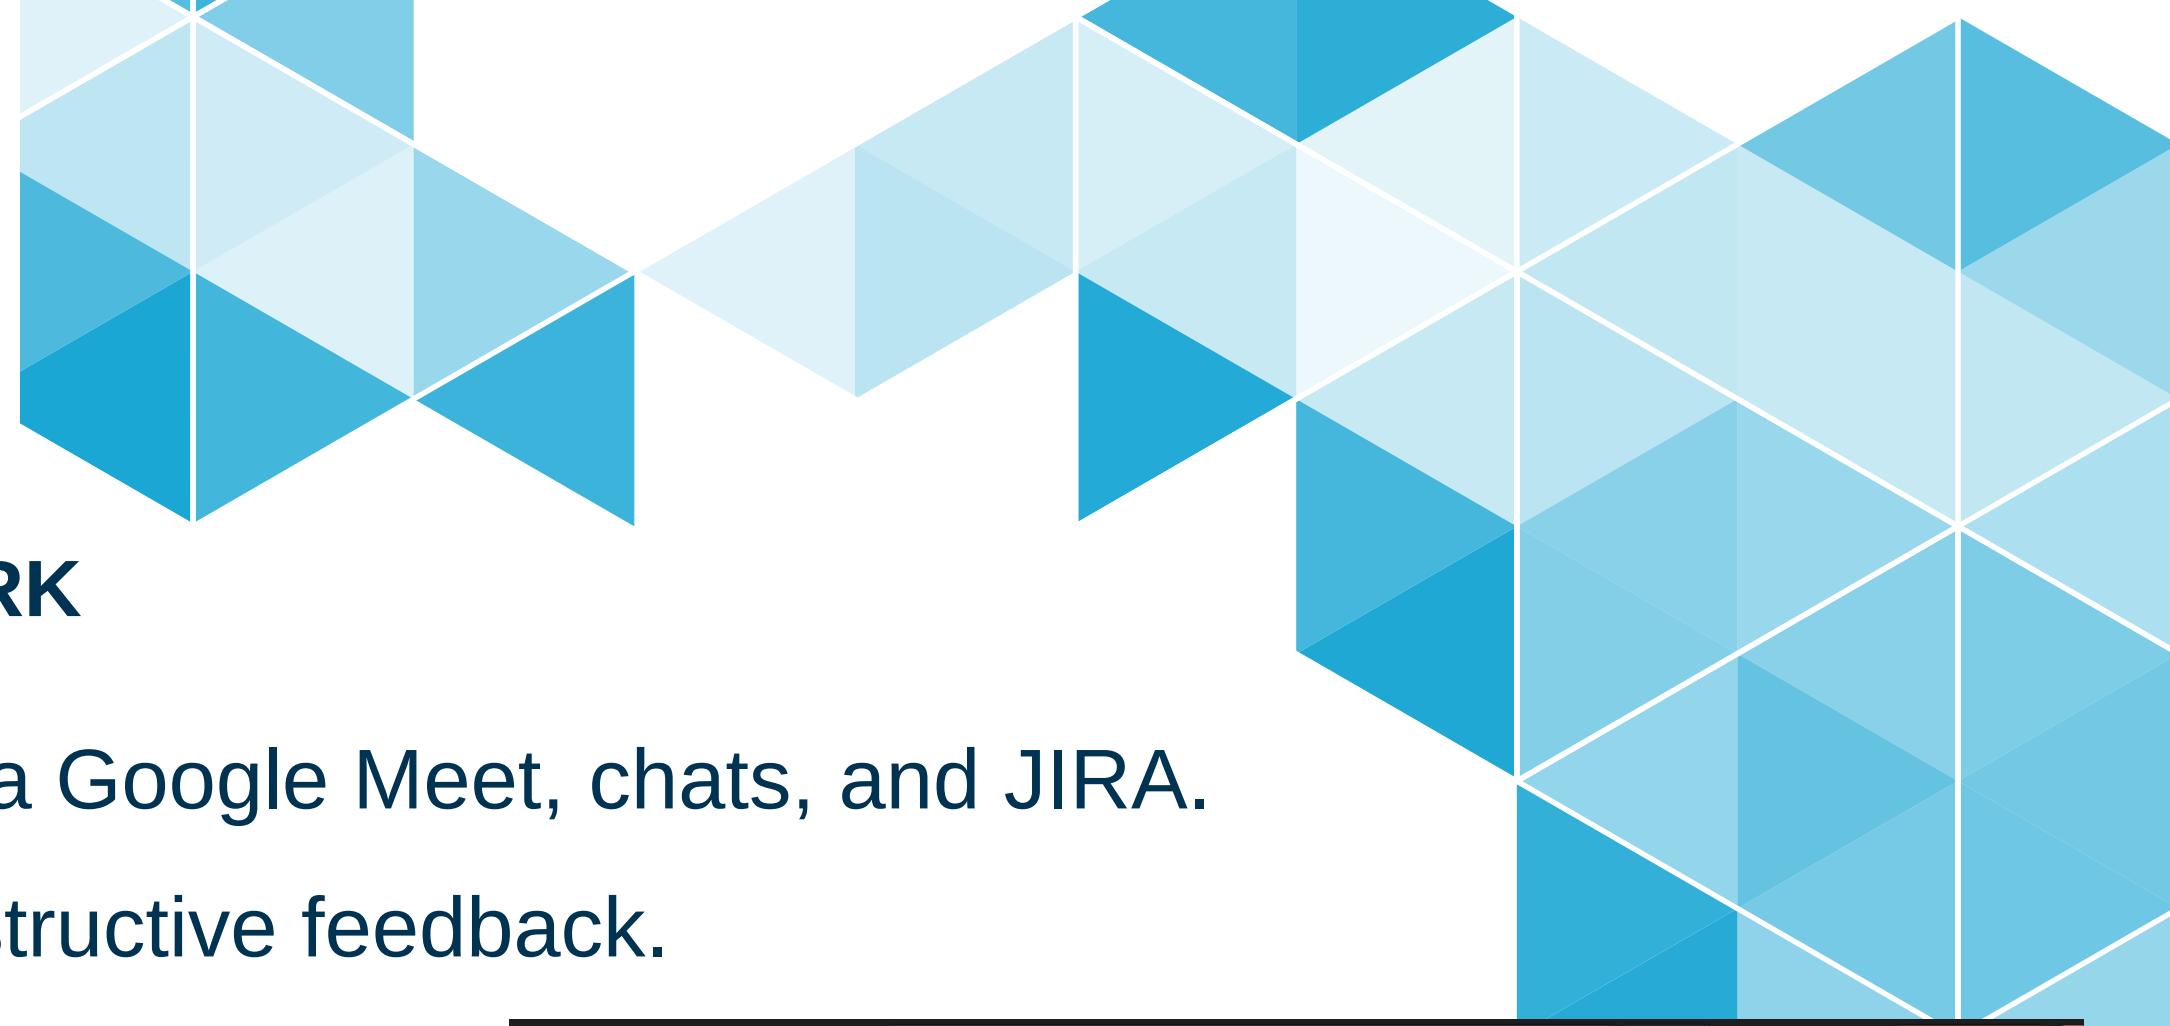

Daily Standup/Catchup: 15-minute updates on progress and blockers.

Sprint Review: Demo features, gather feedback.

Sprint Retrospective: Reflect on successes and improvements.

MANAGEMENT EXPERIENCE

COMMUNICATION AND TEAMWORK

Clear, respectful communication via Google Meet, chats, and JIRA.

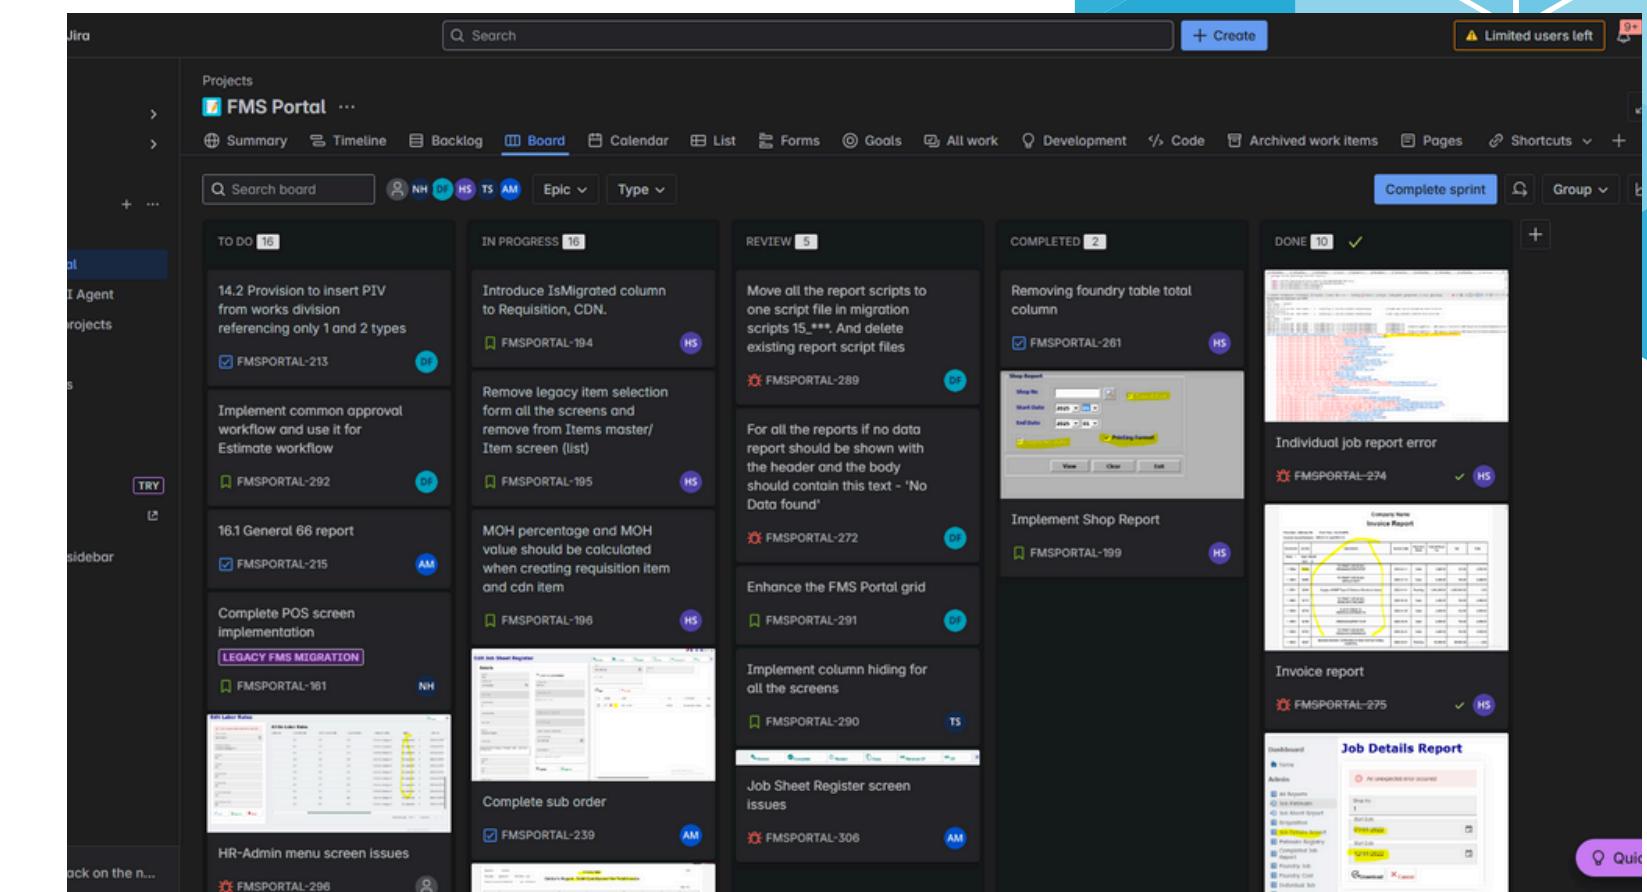

Encouraged idea-sharing and constructive feedback.

Collaborative problem-solving

TIME MANAGEMENT

Prioritize tasks using sprints, allocating time effectively via JIRA tracking.

CONCLUSION

I got to apply what I learned in university and developed a deeper understanding of how software systems are built and managed in real life

enhancing technical expertise and soft skills like problem-solving and collaboration

THANK YOU
